Docket No. 98N-1265

Food and Drug Administration

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: The compound medications prescribed by my physician has proven to be a viable HRT program for me eliminating the side effects felt by the synthetic HRT program. I oppose the Draft M.O.U. by the FDA since it would eliminate my choice for prescriptions beneficial to me. My compounded prescription relieves my symptoms of menopause and has greatly reduced such symptoms as anxiety and sleeplessness and has improved my overall well being.
